 [www.incd.pt](http://www.incd.pt)

Welcome and quick explanation of the course

- Summary of coastal modeling and forecasting (10 min)
- Generation of triangular finite element grids for coastal models (20 min)
- The OPENCoastS platform hands-on tutorial (45 min)
- Final questions
- Course rating by the attendees

1. For those who aren't already register at the platform, to follow the hands-on:
  - a) Go to <https://opencoasts.ncg.ingrid.pt/home>
  - b) Register (email e passwd)
  - c) Validate the registry on your email (then we can activate your user)
2. Rate our course today! Please fill the form (anonymous) and leave it at your desk before you leave.
